SECRET

25X1

25X1

-Strength

SECRET

25X1

25X1

the strength of the battalion in officers and non

is as follows:

Before the initial dismissal of 9000 and the second of 6000 Officers and NCOs, discharged from the service lately, the battalion had a strength of about 100 officers. After the said reduction in force the number of officers serving in with the battalion was decreased to 40.

The battalion had a strength of 350 men(approximately).

Training

The men of the battalion were trained every day.

Commander

Since 1955, commander of the battalion is a Cpt A' named Nazif (Inu) from the village of POLOSKE. Before him, commander of the battalion was a (Lt Col.) named Lulo ~~SHENGO~~.

25X1

2. - Recruiting Service

a). The Strength of the Albanian Armed Forces and Security Forces has been reduced.

Late in April 1956 [redacted] were released 6000 to 7000 officers and NCOs of the Army and the Security Forces. The a/m dismissal of personnel has nothing to do with the 9000 men discharged in previous date.

25X1

3. - Military Installations

a). Army Barracks of Dilisht

Location: Subject barracks are located S.W. of Dilisht and on the E. side of the road leading from Dilisht to KRISTAJOPICI.

Description: The barracks of Dilisht consist of the following 7 buildings:

Out of them, three are similar, stone-constructed, single-story, with arched-

25X1

SECRET

25X1

roof covered with tiles; [redacted] the Italians. In these buildings 25X1

are lodged the men of the Inf. battalion. 25X1

The fourth building is constructed with ~~888~~ stones, and its roof is covered with tiles; it is a two story building constructed in Zog's period. In this one are stationed the workshops of the battalion(shoe-maker's shop, ^{tailor's} 25X1 shop, etc).

The remaining 3 buildings are single-story, with different dimensions, having their roofs covered with tiles. One of them serves as a cookhouse [redacted]

At a distance of 300 m. from the a/m barracks, within the area of the barracks which is surrounded with a wire-fence, there is the church of AGIA PARASKEVI and a small building located nearby the church. The latter is used as an ammunition depot.

Water

Water is received from springs located in the area of the barracks.

Light

Electricity is available from the Electricity Producing Factory of Bilisht.

Security measures (Guards)

The side of the camp located towards the road is closed with a brick-made wall about 1,90 m. high. The other three sides of the camp are surrounded with barbed-wire fence about 1,50 m. high. In day time the camp is guarded by a sentry assigned to the gate which is located to the side of the camp facing 25X1 the road. Within the area of the barracks there are two Soviet A/A guns, 12,7 mm, type M1, DSHK, M-1936. [redacted]
